

What Auto Recyclers Have To Say About EDEN

"EDEN has completely revolutionized us. Before we added the parts locating network in 1992, we didn't have the market to support a late model inventory. Now, it's completely opened up our markets; our business is 70 percent wholesale. On EDEN, everything sells."

*Jim Butler
Butler Auto Salvage
Pensacola, Florida*

"EDEN has completely changed our focus from that of a regional recycler to one of national exposure. We have now sold and shipped parts to almost every state in the country. Adding EDEN was the best thing we have ever done. EDEN is a clear winner."

*Joseph Simon
Central Auto Recycling
Syracuse, New York*

"EDEN is extremely helpful for our countermen. When they are having a conversation with a customer, they are able to sell the parts immediately. And, EDEN has allowed us to sell to customers in other states, which increases our sales dollars tremendously."

*Steve Holland
Brandon Auto Salvage
Valrico, Florida*
