

Technology that helps drive your deliveries, while fueling your profitability.

Elite EXTRA™ is a real-time, GPS dispatch management solution designed to maximize employee productivity, improve customer service, and promote efficiencies.

How does it work? Elite EXTRA is an automated and integrated "traffic control center" that creates optimally sequenced routes on an interactive map, and then dispatches them to your drivers' smart phones or tablets.

As a recognized leader in the logistics industry, this award-winning solution will give you visibility of your deliveries and drivers at all times, thereby increasing employee accountability and customer satisfaction.

The result? You and your customers will know when and where your deliveries are at all times!

BENEFITS

- Increase profitability through efficient routes
- Deliver accountability through GPS tracking and real-time ETA calculations
- Provide real-time operational visibility
- Enhance customer relationships
- Reduce fuel and paper consumption - go green!
