

Virtual Shipping Assistant

An online quote, dispatch and tracking tool makes managing your freight easier than ever from Hollander and SAV Transportation Group.

Virtual Shipping Assistant gives you immediate access to preferred rates from a host of qualified carriers providing national range and reach. Leveraging our “collective spend” allows more and better options at highly competitive rates.

Streamline Your Business

Save money, time, and effort in shipping your goods to your customers. Virtual Shipping Assistant leverages negotiated rates with freight carriers throughout North America and passes the savings onto you. It manages your freight from quote to delivery.

Get Competitive Rate Quotes

Virtual Shipping Assistant lets you compare multiple quotes, carrier options and volume discount rates in a single view and make smart choices for your shipping needs.

Reduce Manual Entry

Integration with Powerlink puts just-in-time freight quotes in your workflow. Automation frees you to stay focused on selling by populating key order information. The tool's built-in Bill of Ladings put a stop to paperwork, filing and expensive tariffs.

Built-In Commodity Catalog

Reduce the risk of costly tariffs or re-class charges with the built-in Commodity Catalog. The top part types you typically put on a pallet are pre-categorized with the National Motor Freight Classifications.

We've Got You Covered

A cutting-edge, zero-deductible onboard insurance option lets you secure your sale for 100 percent of the insured value, including both the invoiced part and the freight.
